

GENERAL STUDIES (AA)

Program Overview

The General Studies (AA) degrees is a 2-year undergraduate transfer degree program designed largely for the completion of the general education requirements and related lower division studies typically pursued during the first two years of a four-year baccalaureate degree program. Most of the coursework in this transfer AA degree program encompasses CSU's Core Curriculum requirements, which include some preparatory or introductory coursework for upper division requirements in particular majors. However, these transfer associate degrees do not include in-depth studies in a particular major, which are typically pursued at the upper division level (last two years) of a four-year degree program.

Career Opportunities

This degree is intended to serve as an undergraduate transfer degree program, designed largely for the completion of the general education requirements and related lower division studies typically pursued during the first two years of a four-year baccalaureate degree program.
