

MUSIC (BA)

Program Overview

The **Bachelor of Arts in Music** degree offers students a versatile liberal arts education within an extraordinary music school. By fostering intellectual and scholarly engagement in many disciplines, it is particularly well-suited for musically talented students who have additional academic interests and desire a flexible career trajectory.

The BA curriculum provides a comprehensive academic education with rigorous musical training that develops creative and intellectual habits essential for success in careers of all kinds. It encourages the creative spirit and flexibility needed in a quickly evolving global economy. Students will choose a track either from inside the School of Music (composition or general audio technology, piano technology, or public musicology) or are encouraged to choose a minor from those offered from other departments at CSU. The various tracks allow students to tailor the degree to their particularly academic or career interests. While studying a wide range of academic disciplines, BA students receive exceptional professional training in musicianship, including private study with our artist faculty in applied music, and are able to participate fully in the musical life of the Schwob School of Music.

Career Opportunities

- Music performance
- Production
- Studio instruction
- Fields that link the degree with a minor in another field such as business, health/wellness, and tourism
