ADDITIONAL NOTES

This program map illustrates appropriate coursework for completing a degree within four years, provided that course grades allow for earned credit. Please consult with your advisor to determine when courses can be switched out with others and taken in a different semester or sequence than illustrated since not all courses are taught every semester.

This map is for illustrative purposes only and does not constitute a legal contract on the part of CSU since degree requirements of course offerings could change. As always, check with your advisor.

Students must complete ENGL 1101 English Composition I, ENGL 1102 English Composition II, and MATH 1001 or MATH 1101 prior to reaching 30 hours and earn a "C" or higher in ENGL 1101 and 1102.

As of Fall 2013, all undergraduate students are required each semester to meet the 2.0 institutional GPA standard for satisfactory academic progress.

Many graduate programs require an entrance examination. Students should take this exam prior to applying for graduate programs.

Students should work with their advisor to ensure all required courses are taken for the graduate program of choice.

PHED 1205 Concepts of Fitness is required for all students unless they are over the age of 40, are a prior military service member, or have a documented disability.

² Institutional Priorities Elective in FRLC will be PERS 1506.

³ Behavioral Science Elective and PSYC 1101 Introduction to General Psychology can be taken at any time in the nursing program.

⁴ Denotes example and is subject to student interest.

^{*} It is strongly recommended that a student take CHEM 1151/CHEM 1151L as part of their CORE IMPACTS to complete a prerequisite for BIOL 2251K and BIOL 2260K.

^{**}It is recommended that a student take CHEM 1152/CHEM 1152L in order to support successful completion of upper level courses in the program of study.
