NURSING (BSN)

Program Overview

The BSN degree prepares a nurse generalist with a liberal arts background who focuses upon treating human responses to actual or potential health programs. Graduates are expected to meet the program outcomes to function in entry-level nursing practice positions. After successful completion of required core coursework, students enter nursing courses in the fall of their junior year.

CSU Nursing Facts:

There are more than 1,000 health science majors focusing on nursing and nursing majors and the numbers continue to increase.

The baccalaureate degree program in nursing is approved by the Georgia Board of Nursing (https://sos.ga.gov/index.php/licensing/plb/45/). The baccalaureate degree program in nursing is accredited by:

    Commission on Collegiate Nursing Education
    655 K Street, NW, Suite 750
    Washington, DC 20001
    202-887-6791

Our students pass the NCLEX, the national nursing licensure exam, at rates well above national average.

Our faculty provides hands-on experiences to our students. All of our professors are clinical experts in the area in which they teach.

Students get relevant, hands-on experience, in the classroom and in clinical settings.

Low instructor-to-student ratio.

The clinical nursing curriculum is offered over four semesters beginning in the junior year and is preceded by two years of pre-nursing (core) courses.

The PACE Office is the Advising Center for the School of Nursing.
