

MAT IN SECONDARY EDUCATION

Overview

The Master of Arts in Teaching (M.A.T.) program in secondary education is designed for individuals holding a bachelor's degree in a field closely related to a secondary certification field, who wish to obtain a teaching certificate and master's degree in secondary education. Teacher certification options available through this degree include English, History, Biology, Chemistry, Earth/Space Science, Mathematics, or Physics with certification in grades 6-12 or Computer Science with certification in grades P-12. The M.A.T. provides professional and pedagogical studies that develop proficiency in the knowledge, skills, and habits of beginning teachers. Additional program information can be found on the CSU Department of Teacher Education, Leadership, and Counseling (<https://tlc.columbusstate.edu/mat-seced.php>) website.

All educator preparation programs are approved by the Georgia Professional Standards Commission. In addition to the degree requirements, there are further requirements for teaching certification. Visit the Certification page (<https://cctl.columbusstate.edu/certification.php>) on the CSU Center for Quality Teaching and Learning (CQTL) website for detailed information about certification requirements and the certification process.

Note for out of state students:

If you live outside the state of Georgia, state regulations may limit your distance education options. To find out whether Columbus State University is authorized to deliver specific programs in your state, please email your inquiry to state_authorization@columbusstate.edu. This email address is exclusively for questions regarding state approval of online offerings. Other types of questions should be sent to the academic department offering the online course.

Columbus State University's programs leading to all levels of licensure, endorsement, and professional certification are designed to satisfy the requirements of their respective Georgia boards governing licensure. CSU does NOT guarantee that these programs will necessarily satisfy the criteria of professional boards in other states or territories. Programs affected by state licensing requirements may include, but are not limited to, programs in Nursing, Leadership, and Education. Students from outside of Georgia who are considering a professional program should contact the appropriate board in their state of intended practice prior to beginning a course of study.

Additional program information can be found on the CSU Department of Teacher Education, Leadership, and Counseling (<https://tlc.columbusstate.edu/onlinematmathscience.php>) website.
