

BIOLOGY (BS) - BIOMEDICAL SCIENCE TRACK

The Biomedical Science concentration within the BS Biology program is designed specifically for students with an interest in healthcare or the biomedical sciences. The program was designed to be unique in its versatility, as it can be modified to accommodate many careers in the biomedical field or serve as the standalone program for those who desire entry into medical, dental or even veterinary school. Students completing this degree would have all the prerequisites needed to pursue most any career or post-graduate degree they seek in the biomedical field.
