

POLITICAL SCIENCE (BS)

Program Overview

A political science degree is a pathway to law school, graduate school, or employment with government agencies or private sector organizations. The Political Science curriculum is designed to improve soft skills and enhance research and problem solving skills. Emphasis is placed on analytical/critical thinking as well as effective written and oral communication. The Bachelor of Science degree in Political Science at Columbus State University can be completed through on-campus or 100% online courses within the program of study.
