

RIVR - RIVER

RIVR 1101 Taking the Plunge (3-0-3)

Each section of the course is themed around current concepts that spark curiosity and innovation. This is your chance to sharpen your critical and creative thinking, boost your professional communication skills, and thrive in collaborative learning environments. You'll also have the opportunity to get involved in research, to socially engage, and to develop community leadership skills. The course will culminate with you showcasing your learning through a dynamic hands-on project, giving a public presentation, or creating a display that highlights your passions and connects to your future career.

RIVR 2101 Navigating Deeper Waters (3-0-3)

Get ready to take your creative and critical thinking skills from RIVR 1101 to the next level! In this course, you'll dive into collaborative problem-solving with your classmates, boosting your emotional intelligence and mastering time management along the way. As you tackle real-world challenges, you'll put your observational skills and intellectual agility into action to develop innovative solutions. Plus, you'll have the chance to learn outside the traditional classroom, with sections tailored to your focus area.

Prerequisite(s): RIVR 1101 with a minimum grade of C
